

## How Do I Run the Clicker?!

There's a few buttons on the new remote control that may not be very familiar to you. This guide will help explain them.

5

For a complete listing of all the button functions, look in the remote control operating manual.

## How Do I Know What's On TV?

Find out using the programming guide.

6

**CURIOS ABOUT WHAT'S ON? THERE'S A VERY EASY WAY TO FIND OUT!** Simply press the gray button on the remote labeled "Guide" one time to access the programming guide. You will see a grid listing of all of our offered channels by number down the right side of the screen and times across the top of the grid.

Beneath the times you can see a listing of all the programs being aired on each channel. You simply use the orange arrow buttons on the remote to navigate through the programs to find one you want to watch.

If you want to move the guide listing up or down one whole page at a time, use the white "-PAGE" and "PAGE+" buttons located directly beneath the blue volume and channel down buttons.

As you arrow through the programs you can tell what program is selected by the way it is highlighted in blue. The upper right side of the screen contains a brief description of the program you have highlighted.

The upper left side of the screen displays the program you were watching before you opened the guide, so you can still pay attention to it while looking for what to watch next.

Once you've decided on a program to watch, just highlight it and press the orange "OK" button twice.

If you want to get out of the guide without changing what you're currently watching, just press the gray "EXIT" button.
